F-SERIES

F-Series

A Tradition of Leadership

F-Series pickups have been the best-selling trucks in America for nineteen straight years.

The tradition of leadership and innovation began when Henry Ford introduced his first pickup in 1917. Ford's V8 engine was

introduced in 1932, over two decades before its closest competitor. Innovations like four-wheel drive, Twin-I-Beam suspension and anti-lock brakes have forever changed the way we look at trucks. And how we use them. The 1997 F-Series

continues this proud tradition with a standard three-door SuperCab.

Standard driver and passenger air bags. And an exclusive line-up of overhead cam V8 engines.

F-150 XLT 4x2 in Silver Frost Clearcoat Metallic with some optional equipment.

New F-250

More Capability

The rugged new F-250 takes trucking with Ford to a higher level, with a maximum payload rating of 3,340 lbs. (4x2 with available payload package) and offers a Heavy Duty Service Package for applications like snow plowing. There's greater trailer towing capability for 1997 as well – up to 8,700 lbs. for a Regular Cab 4x2 with the 5.4-liter Triton™ V8.

F-250 SuperCab 4x2 in Bright Red Clearcoat over Silver Frost Metallic.

Flareside 4x4

for the Fun of it

The F-150 Flareside is as stylish as it is tough, with enough payload capacity to carry you and your weekend fun anywhere you want to go. Flareside comes in Regular Cab or SuperCab. Choose the 4x2 or the 4x4 equipped with the available Off-Road Equipment Group, featuring special 17" all-terrain tires, unique aluminum wheels, fog lamps, skid plates and more – for the fun of it.

F-150 Flareside 4x4 in Dark Toreador Red Clearcoat Metallic.

A Standard Third Door for Greater Versatility

You may have experienced the inconvenience of trying to get out of the back seat of a pickup. Not any longer. Ford, and only Ford, now offers the convenience of a standard Third Door on the SuperCab.

You can open the Third Door (when the front door is open) from the rear seat with the handle on the door trim panel – an exclusive SuperCab feature.

The roof-mounted right shoulder belt design provides a convenient rear passenger assist handle.

The front and rear doors have a side intrusion beam. There's also an additional vertical beam in the Third Door that locks to the top and bottom of the cab.

Roominess and Comfort

The 1997 Lariat is offered with a standard leather front 60/40 3-passenger split bench seat with individual recliners and a center fold-down armrest/storage bin. The 3-passenger 60/40 rear split bench seat is standard on SuperCab XL, XLT and Lariat (optional on Standard). Flip the 40-section seat cushion forward for more cargo space while seating two passengers. Or flip the 60-section cushion forward for more cargo space and room for one passenger.

Lariat 60/40 split bench seats are also available in Prairie Tan leather.

The XLT SuperCab cloth interior in Medium Graphite with some optional equipment.

The Lariat with optional Medium Graphite leather captain's chairs/console.

Safe, Secure

and in Control

Safety is a top priority at Ford. That's why the F-Series is the first full-size pickup to offer standard driver and right-front passenger air bags to supplement safety belts. *Always remember to buckle up.*

A driver-controlled switch deactivates the passenger-side air bag to help protect an infant in a rear-facing child seat.

Climate and sound system controls are in an ergonomic center pod. Large buttons and rotary knobs are easy to operate.

Front window seats (except right side in SuperCab) have adjustable lap/shoulder safety belts.

A six-disc CD changer with electronic AM/FM stereo radio and cassette player is optional in XLT and Lariat.

The optional electric shift-on-the-fly 4x4 system has a rotary control switch for convenience.

Lighted controls for power windows and door locks (standard in XLT and Lariat) are easy to see at night.

Only Lineup of Overhead Cam V8s in Full-Size Pickups

Triton™ V8 Power

The 4.6-liter Triton™ V8 (shown below) delivers increased horsepower per liter of displacement over the previous generation V8 it replaces. Both the F-150 and F-250 powered by this engine have the highest available V8 payload capacity in their class (under 8,500 lbs. GVWR).

For maximum horsepower and torque, go with the new 5.4-liter Triton™ V8 (shown right). Both the 4.6-liter and the 5.4-liter engines have a chain-driven, single overhead cam (SOHC) design and a fail-safe cooling system.

4.2L V6 – Most Powerful Standard Engine

With 205 horsepower at 4,400 rpm, the 4.2-liter engine is the most powerful standard V6 available in a full-size pickup. The 4.2L features a split-port induction system, with two valves (intake/exhaust) and two intake ports per cylinder.

100,000 mile tune-ups

Ford's truck engines can go 100,000 miles between scheduled tune-ups (under normal driving conditions with routine fluid/filter changes).

Fail-Safe Cooling System

The fail-safe cooling system on the Triton™ V8 engine is designed to help protect the engine from potential damage due to loss of coolant.

Innovations

by the Dozen

Interval wipers are standard. In the XLT and Lariat, the timing rate automatically adjusts to the vehicle's speed.

A cargo box light near the rear high-mount stop lamp makes it a lot easier to load and unload your pickup at night.

Standard upper rail moldings protect the top of the box and the tailgate from scuffing and other damage.

The tailgate is removable, and lockable.

The pickup box side inner panels have horizontal pockets and vertical slots for two-tied and compartmentalized loading. Convenient tie-down hooks are standard.

SuperCab quarter windows can be flipped out for added ventilation. XLT and Lariat have privacy quarter and rear window glass.

Autolamp system, available with the 6-way power driver seat for XLT and Lariat, turns the headlamps on and off automatically.

Fuel, engine temperature, oil pressure gauges and voltmeter are standard. XLT and Lariat also include a tachometer.

The front split bench seat in XLT and Lariat features a fold-down center armrest with cup holder. Flip up the padded armrest cover and you have a large and convenient storage compartment.

The XLT/Lariat door panel with map pockets, lower panel carpeting, grab handle and curb light.

A 7-pin trailer wiring harness and a frame-mounted hitch are part of the optional Class III Trailer Towing Group. A 4-pin trailer wiring harness is standard on all models.

The front split bench seat in XLT and Lariat is designed for firm and supportive comfort. It features conveniences such as lumbar adjustment for the driver and reclining seat backs, and offers available six-way power driver's seat adjustment.

(1) Towing trailers over 20,000 lbs. is not recommended with 3.08 F-150 or 3.31 F-250 axle ratios. The optional Class II Trailer Group includes a 3.55 F-150 or 3.73 F-250 axle ratio.

Dealer Accessories

Your Ford Dealer can show you a lot of ways to personalize your new 1997 Ford F-150 or F-250. The features shown here are just a few. Like the F-Series itself, Ford-brand accessories are made with a commitment to quality. And they're covered by the new vehicle limited warranty. See your Ford Dealer for details.

This hood-mounted air deflector helps keep the windshield clear of bugs.

This hood cover helps protect your F-Series' paint finish from chipping.

Running boards add style while making it easier to get in or out of the cab.

Tonneau cover provides extra security, plus added protection in bad weather.

High-density bedliner helps protect the inside of your pickup box.

This cargo net secures items like tools and hard hats inside the pickup box.

Ownership Experience

ROADSIDE ASSISTANCE PROGRAM

Every new Ford includes the assurance of a 24-hour emergency Roadside Assistance Program provided during the 3-year/36,000-mile bumper-to-bumper warranty. Ask your dealer for complete details on this program which includes such services as fuel delivery, tire change, jump start, or even help when you're locked out of your truck.

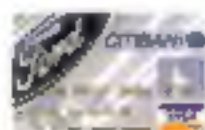

Ford Credit offers a wide variety of financing and leasing programs to qualified buyers which can be arranged right at the dealership. Ask your Ford Dealer for the complete facts on these programs.

Optional Ford Extended Service Plans go beyond the 3-year/36,000-mile warranty. Ask your dealer for complete details on the optional plans and for a copy of the limited warranty.

FORD CITIBANK CARD

Your Ford Citibank VISA® or MasterCard® could earn you hundreds, even thousands of dollars in Ford Rebates you can apply toward the purchase or Red Carpet Lease of a new Ford, Lincoln or Mercury. To apply, call 1-800-374-7777 or visit a Ford or Lincoln-Mercury dealership.

DEALER-INSTALLED ACCESSORIES

Your Ford Dealer offers a variety of quality Ford-brand accessories that meets or exceeds our strict specifications.
